

Golf Course Herbicides & Spray Additives

Par III

- Selective herbicide for control of a wide range of hard-to-kill broadleaf weeds on turf.
- Commercial strength 3-way blend concentrate.
- Apply by ground application only.
- Boom Spray Rate: 5.5 L/hectare in 300 L of water.
- Spot Spray Rate: 55 ml/3L of water/100 m²
- Sizes: 4 L, 10 L, 115 L drum.
- PCP: 27884.

Roundup Weather Max

- Contains 540 grams/litre Glyphosate.
- Patented formulation with "Transorb 2" technology begins to speed a lethal dose of weed-killing power directly into the target weed within minutes.
- Broad-spectrum herbicide delivers consistent performance under a wide range of conditions.
- Rate: Varies significantly; see product label.
- 10 L jug.
- PCP: 27487

Quicksilver Herbicide

- Controls Silvery-Thread Moss on greens and tees.
- Fast, visible symptom within 7 days of application.
- Very safe for use in an overseeding program.
- Rain-fast within one hour of application.
- Rate: 4.9 ml / 100 m² twice, 14 days apart.
- Use with non-ionic surfactant (i.e. Agral 90 or LI700) to improve coverage control.
- 237 ml Squeeze & Pour bottle.
- PCP: 30142

Big Foot Spray Pattern Indicator

- Temporary spray pattern indicator for application of pesticides and liquid fertilizers.
- Helps eliminate spray application overlap or misses.
- Can also be used as a visual indicator of spray drift.
- Rate: 16 oz / 100 US Gallons.
- 2.5 US Gallon Jug.

Super Signal™ Blue Spray Pattern Indicator Concentrate

- Optimizes spray accuracy resulting in better coverage and reduced spray misses or waste.
- Temporary colour dissipates with moisture or sunlight.
- Concentrated non-toxic formulation.
- Rate: 16-32 oz / 100 US Gallons.
- 2.5 US Gallon (9.46 L) container.

Signal Green™ Spray Indicator

- Green spray pattern indicator formulated to provide a temporary enhanced green tint to treated turf.
- Dissipates with moisture or sunlight.
 - Environmentally safe.
 - 32 – 64 oz / 100 US Gallons.
 - 1 US Gallon (3.78L) container.

Super Spreader Sticker

- A non-ionic adjuvant which enhances the effectiveness of agricultural and non-crop chemicals.
- Foliage wettability is improved by forming a continuous, uniform film on the leaf surface.
- Works well in both hard and soft water.
- Rate: 1 – 2.5 ml / L of spray solution.
- 3.78 L container.
- PCP: 17402

Border T&O™ Spray Performance Adjuvant

- Enhances the performance of fungicides, herbicides, and insecticides by modifying the physical characteristics of the spray droplet – less droplet bounce.
- Conditions the spray solution, improving tank mix partner efficacy.
- Rates vary based on spray pressure – please consult product label.
- 2.5 US Gallon (9.46 L) container.

LI 700 Surfactant / Spray Enhancer

- Non-Ionic Penetrating Surfactant.
- Lowers water pH and helps extend the tank-life of herbicide spray solutions.
- Improves spray droplet size and droplet deposition.
- Rates vary: 30 – 500 ml/100 L water.
- 10 Litre Jug
- PCP: 23026

Incide-Out Liquid Spray Tank Cleaner

- Formulated to bond pesticide residues to rinse water solution for complete cleaning of spray tank and sprayer components.
- Penetrates Residue build-up.
- Neutralizes organic acids.
- 946 ml container yields 100 US Gallons (378 L) of cleaner solution.

Breaker

- Concentrated anti-foaming and de-foaming agent.
- Can be added before or after spray solution has been mixed.
- For use with pesticide spray mixtures.
- 175 ml container.
