Primo Maxx®

Manage Clipping Yields While Elevating Your Turf To A New Level of Playability

Primo MAXX is a unique management tool that allows golf course superintendents to better manage turfgrass on their courses. Benefits in using Primo MAXX:

- Can be used as a pre-stress conditioning tool to prepare turf for summer extremes such as heat and drought.
- Less clipping yields results in a healthier cut – more predictable, consistent playing conditions and better turf wear recovery.
- Reduced wear on equipment, lower labour costs, and reduced fuel consumption.

Application Rate for Primo MAXX:

- 4 ml / 100m² monthly for Bentgrass.
- 3.78 litre container.
- PCP: 26989
