

Brandt® Seaweed Max

Liquid Seaweed Extract

0-0-2

Guaranteed Analysis

Soluble Potash (K₂O) 2.0%

Derived from potassium citrate and kelp (*Ascophyllum nosodum*). F76
This product is not intended for use on food crop sites.

General Information

BRANDT SEAWEED MAX is a liquid fertilizer enriched with seaweed extract specifically designed for use on turf grasses. Potassium helps regulate primary physiological processes that impact turf response to stress and supports cellular processes.

Rate Recommendations

Turf: For professional use only, apply 1.5-3 fl oz per 1,000 sq ft or 2-4 quarts per acre per month during the growing season. Total minimum seasonal rates of 20 quarts per acre should be applied for highly stressed areas.

Fertigation: Inject into irrigation at 1.5-3 fl oz per 1,000 sq ft or 1-2 gallons per acre 3-6 times during the growing season.

Deep Root Injection: Apply 2-4 quarts per 10 gallons of injection solution.

Optimum rate of application will vary depending on treatment interval, soil properties (such as pH, organic matter content, texture), weather conditions, time of year and plant species.

Mixing and Handling Instructions

Fill mix tank with half of required water volume and begin agitation. Add products in this order, mixing thoroughly after each addition: adjuvants, pesticides, then fertilizers. Fill tank with remainder of water and continue agitation until solution is completely mixed. Check chemical mixture compatibility using a jar test prior to application. Be cautious when mixing with phosphate solutions.

Net Contents:

2.5 gallons (9.46 liters)
Density: 8.76 lb/gal @ 68°F
Net Weight: 21.6 lb (9.7 kg)
2019-12

Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden. Check with your local Cooperative Extension Agency to obtain specific information on local turf best management practices.

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.html>

Information about the components of this lot of fertilizer may be obtained by writing to Brandt Consolidated, Inc. and giving the lot number which is found on the container or label.

Precautionary Statements: Based on currently available data, this product is not classified as a hazardous substance. However, observe good industrial hygiene practices. Wash hands after handling. **Storage and Disposal:** Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store away from incompatible materials. Dispose of contents/container in accordance with local authority requirements.
