

# JET BLACK™

## Black Lake and Pond Dye

### PRINCIPAL FUNCTIONING AGENTS

Proprietary blend of dyes.....	35.0%
Water and formulation aids.....	65.0%
Total .....	100.0%

All ingredients are approved for use under 40 CFR 180

### KEEP OUT OF REACH OF CHILDREN

### PRECAUTIONARY STATEMENTS

If medical advice is needed, have product container or label at hand. Read label before use.

### PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators or other handlers of this chemical must wear long-sleeved shirt, pants, shoes and socks, chemical-resistant gloves, and protective eyewear. Consult the SDS for further information.

### FIRST AID

- If Swallowed:** Rinse mouth. Have person sip a glass of water if able to swallow. Do NOT induce vomiting, unless told to by a poison control center or doctor. Do not give anything to an unconscious person.
- If Inhaled:** Move person to fresh air. If person is having difficulty breathing, give oxygen. If not breathing, give artificial respiration.
- If In Eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.
- If On Skin:** Wash affected area with plenty of soap and water. Use tepid water if available. If skin irritation occurs: Get medical advice or attention.

### GENERAL INFORMATION

JET BLACK is a proprietary blend of environmentally friendly, nontoxic, water-soluble dyes formulated to reduce sunlight penetration and impart a natural black color when applied to ponds, lakes and fountains.

JET BLACK is nontoxic to turf grass, birds, mammals, reptiles, fish or other aquatic species. Irrigation, swimming and other recreational uses are approved during and following the use of this product. Applications to chlorinated water may require more frequent treatment.

### DIRECTIONS FOR USE

FOR APPLICATION TO PONDS, LAKES, FISHERIES AND ORNAMENTAL BODIES OF WATER. **IMPORTANT: DO NOT APPLY THIS PRODUCT TO WATER INTENDED FOR HUMAN CONSUMPTION. DO NOT USE THIS PRODUCT FOR STREAMS, RIVERS OR OTHER BODIES OF WATER, WHICH ARE NOT UNDER THE CONTROL OF THE USER.**

Apply either directly from container along shoreline or pour from a slow-moving boat. Wind and water currents will slowly disperse and mix JET BLACK uniformly throughout the entire body of water. JET BLACK can also be applied using a hand-held "Hudson-type" pressure sprayer. Use caution in windy conditions. For best results, apply early in the spring and throughout the season as color intensity indicates.

### USE RATES

Apply 22 ounces (650 ml) per acre-foot\* of water.

**In bodies of water over four feet deep:** Determine the initial number of ounces of JET BLACK to apply by multiplying the surface acres of the body of water by 4. Once dye has been applied and dispersed, color intensity can be increased by adding additional JET BLACK, if desired.

**In bodies of water less than four feet deep:** Determine the initial number of ounces of JET BLACK to apply by multiplying the surface acres of the body of water by the average depth. Once dye has been applied and dispersed, color intensity can be increased by adding additional JET BLACK, if desired.

\*Recommendations are based on acre-feet of water. One acre-foot is the quantity of water that would cover one surface acre to a depth of one foot. One acre-foot of water is approximately 326,000 gallons.

### STORAGE AND DISPOSAL

**PROTECT FROM FREEZING.** Store or transport above 32°F. Do not reuse or rinse empty container. Dispose of container in a safe manner in accordance with federal, state and local regulations. Do not use this product in a manner inconsistent with labeling.

### CONDITIONS OF SALE

Note: Read the information contained herein before buying or using this product. If the stated terms are not acceptable, return the product at once, unopened. It is critical that this product be used and mixed only as specified on this label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and/or handling. Precision Laboratories, LLC warrants that this material is reasonably fit for use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Unforeseen factors beyond Precision's control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use as stated herein and even though label directions are followed. Follow directions carefully. Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product, shall be the purchase price paid by the user or buyer for the quantity of product involved.
