DIRECTIONS FOR USE:

PURESPRAY FX is an emulsifiable horticultural spray oil that suppresses powdery mildew and mites, and deters feeding by aphids on cannabis that is produced commercially indoors.

FOR EFFECTIVE SUPPRESSION THOROUGH COVERAGE IS ESSENTIAL. AVOID OVERSPRAYING.

PURESPRAY FX should be applied using any conventional ground spray equipment as recommended in the provincial spray calendars.

DO NOT allow effluent or runoff from greenhouses containing this product to enter lakes, streams, ponds or other waters.

DO NOT APPLY BY AIR

The DIRECTIONS FOR USE for this product for the use described below were developed by persons other than Intelligro and accepted for registration by Health Canada under the User Requested Minor Use Label Expansion program. Intelligro itself makes no representation or warranty with respect to performance (efficacy) and/or crop tolerance (phytotoxicity) claims for this product when used on the crops listed below. Accordingly, the Buyer and User assume all risks related to performance and crop tolerance arising, and agree to hold Intelligro harmless from any claims based on efficacy and/or phytotoxicity in connection with the use described below.

APPLICATION RATE TABLE			
CROP	PESTS	APPLICATION RATE	COMMENTS
Cannabis (marihuana) produced commercially indoors	Suppression of powdery mildew (<i>Erysiphe cichoracearum</i> , <i>Podosphaera macularis</i>) and mites; Deter feeding by aphids.	5 L of PURESPRAY FX in 250-500 L water (1-2% solution). Use sufficient spray volume, 1000-3000 L/ha, to ensure thorough crop coverage.	Maximum 6 applications during lifespan of plant (lifespan is 12-14 weeks from cutting to harvest). Only use lower application rate (1%) during budding/flowering. Re-application interval is 7-14 days. For powdery mildew, begin applications when conditions are favourable for disease. Do not apply on new seedlings or clones less than 2 weeks old without having

			determined sensitivity (phytotoxicity).
--	--	--	---

As this product is not registered for the control of pests in aquatic systems, **DO NOT** use to control aquatic pests.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

BUFFER ZONES:

Use of the following spray methods or equipment DO NOT require a buffer zone: handheld or backpack sprayer and spot treatment.

When a tank mixture is used, consult the labels of the tank-mix partners and observe the largest (most restrictive) buffer zone of the products involved in the tank mixture.

DO NOT apply by air.

ENVIRONMENTAL HAZARDS:

TOXIC to aquatic organisms.

To reduce runoff from treated areas into aquatic habitats avoid application to areas with a moderate to steep slope, compacted soil, or clay.

Contamination of aquatic areas as a result of runoff may be reduced by including a vegetative strip between the treated area and the edge of the water body.

Do not contaminate water when disposing of equipment washwater or rinsate. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas.

USE PRECAUTIONS:

All horticultural oils interfere with or slow plant transpiration and respiration during the period of evaporation. **DO NOT APPLY DURING PERIODS OF DROUGHT AND WHEN PLANTS EXHIBIT MOISTURE STRESS.** Do not apply when temperatures are high (>30°C) or when plants are under heat or moisture stress.

See Compatibility section.

MIXING INSTRUCTIONS:

Before mixing, be certain the spray tank is clean. To mix add water to agitator level, start agitation and add the required amount of PURESPRAY FX. The mixture should turn white indicating good emulsification. After mixing, continue filling tank and do not stop agitation until tank has been emptied. When mixing oil combination sprays, add the chemical to the tank first, when the tank is one-quarter to one-half full of water. Mix thoroughly and add the PURESPRAY FX last, when the tank is almost full. For further instructions regarding mixing, compatibility, method of application, consult your Provincial Extension Office.

CAUTION: Do not use the spray mixture before the oil has been properly emulsified or if the emulsion “breaks”. Do not use this material if it does not emulsify.

COMPATIBILITY:

Do not apply micronized sulphur within 10 days of an oil application and do not apply oil within 14 days of an application of wettable or dusting sulphur.

The following list of chemicals/products represent some of the compounds that should not be used with, during or following an application of PURESPRAY FX, however this list is not exhaustive: Captan, Wettable Sulphur, dinitro compounds, fungicides such as folpet, organic tin compounds (Du-Ter), karathane, morestan or any other product containing sulphur.

A period of 14 days must elapse before any of the following chemicals are used before or after an application of this product: chlorothalonil (Bravo), permethrin (Pounce).

Only use with other chemicals/products approved for use on cannabis that are compatible with oil.

Do not tank mix with Parathion or Sevin.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN.

MAY IRRITATE EYES.

HARMFUL IF INHALED.

Handle with caution and apply and use only as recommended and at recommended rates. Wear a long-sleeved shirt, long pants, and shoes and socks during mixing, loading, application, clean-up and repair. Do not apply to areas occupied by unprotected humans or domestic animals and do not allow to drift to such areas. Do not contaminate foodstuffs or feed and do not store with such consumables. Do not contaminate streams, ponds or lakes or any irrigation water or water used for livestock or domestic purposes. **CAUTION:** This is a mineral oil product and may be flammable - keep away from fire, open flame and other sources of heat or lighted electric bulbs.

Do not enter or allow others to enter treated areas during the restricted-entry interval (REI) of 12 hours.

FIRST AID:

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

Take the container label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: This product contains petroleum distillates. Vomiting may cause aspiration pneumonia. Treat symptomatically.

STORAGE: Keep container tightly closed and DO NOT allow water to be introduced to contents of this container. Do not store at temperatures below 0°C. Shake well prior to use.

DISPOSAL: Triple- or pressure-rinse the emptied container thoroughly and add the rinsings to the spray mixture in the tank. Follow provincial instructions for any required cleaning of the container prior to its disposal. Make the empty container unsuitable for further use. Dispose of the container in accordance with municipal and provincial requirements. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for information on the clean-up of spills.

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.
