Felco 600 Pruner

There is nothing ordinary about this patented blade design. The shape of the blade is thinner at the top and thicker at the bottom – where the teeth are. This unique feature keeps only the teeth in contact with the material to be cut. This prevents clogging and binding, since the sides of the blade never come in contact with the wood.

- Cuts branches up to 4" (10 cm) dia.
- 14" (35 cm) overall length.
- 6" (16 cm) blade, 4.9 oz. (140 g)
